

PART 10 - NOOSA NORTH SHORE LOCALITY PLAN

Division 1—General provisions for the Noosa North Shore Locality Plan

10.1 Outline of Noosa North Shore Locality Plan

The following components comprise the Noosa North Shore Locality Plan—

10.1.1 Locality maps comprising of¹—

- a) Noosa North Shore (Map ZM7);
- b) Noosa North Shore Biodiversity Overlay (Map OM7.1);
- c) Noosa North Shore Heritage Overlay (Map OM7.2);
- d) Noosa North Shore Natural Hazard Overlay - Landslide and Flooding (Map OM7.3);
- e) Noosa North Shore Natural Hazard Overlay - Bushfire and Acid Sulfate Soils (Map OM7.4); and
- f) Noosa North Shore Natural Resources Overlay (Map OM7.5).

10.1.2 General provisions for the assessment tables (Division 2);

10.1.3 Assessment tables for material change of use in each zone in the locality as follows—

- a) Detached Housing Zone (Division 3);
- b) Visitor Mixed Use Zone (Division 4);
- c) Community Services Zone (Division 5);
- d) Rural Settlement Zone (Division 6);
- e) Open Space Recreation Zone (Division 7); and
- f) Open Space Conservation Zone (Division 8).

10.1.4 Assessment table for the locality—Development other than material change of use (Division 9);

10.1.5 The Noosa North Shore Locality Code comprising—

- a) General provisions for the Noosa North Shore Locality Code (Division 10);
- b) Overall outcomes for the Noosa North Shore Locality (Division 11);
- c) Specific outcomes for the Noosa North Shore Locality (Division 12); and
- d) Specific outcomes for each zone in the locality including—
 - i Detached Housing Zone (Division 13);

¹ The relevant overlay codes relating to the overlay maps are located in Part 13.

- ii Visitor Mixed Use Zone (Division 14);
- iii Community Services Zone (Division 15);
- iv Rural Settlement Zone (Division 16);
- v Open Space Recreation Zone (Division 17); and
- vi Open Space Conservation Zone (Division 18).

Character statement of the locality²

Physical Setting

The Noosa North Shore Locality lies in the north-eastern part of the former Noosa Shire with boundaries generally defined by—

- The Pacific Ocean and the coastline in the east;
- The Noosa River, including its mouth, in the south;
- The Noosa River, Lakes Cooroibah and Cootharaba in the west; and
- The Shire boundary in the north.

The locality has outstanding natural beauty with pristine beaches, dramatic sand dune systems and coastal lowlands. The coastal lowland systems occur throughout the locality, focusing on the headwaters of the Noosa River in the north and on the beach, Lakes Cootharaba and Cooroibah and the Noosa River in the south. The locality is substantially in a natural state, with little effect from development. It serves as a buffer between the urbanised sections of Tewantin, Noosaville and Noosa Heads and the wilderness of the Great Sandy National Park to the north.

Overall, the locality contributes significantly to Noosa's core values due to its environmental and recreational attributes. Protection of the locality and river system values is therefore essential to the Shire and to the region of southeast Queensland. These values are recognised in the National Park status of much of the locality. Areas of Noosa North Shore are a part of the southernmost section of the Great Sandy National Park, an extensive open space region including Fraser Island. Much of the balance part of the locality is in public ownership, which affords protection to many of its values.

Accessibility, Infrastructure & Servicing

A ferry crossing of the Noosa River at Tewantin is the only means of vehicular access to Noosa North Shore from the south. Given the factors of low population levels and environmental sensitivity and the desire to protect character, only a single sealed access road between the ferry and the beach, via Maximillian Road is available. Apart from this road, much of the Noosa North Shore area is accessible by four-wheel drive vehicle only.

Another feature is the Forty Mile Beach vehicular access to Teewah, the coloured sands of the high dunes and north to other sections of the Great Sandy National Park and Double Island Point.

Vehicular access throughout the locality can be dependent upon seasons, with some roads impassable in sustained wet weather.

Many of the residents along the Noosa River rely on boat access to Tewantin and Noosaville for daily commuting.

Access throughout the locality is of an adequate standard for recreation, but it is not well suited for residential and rural residential purposes. Other rural parts of the Shire have more suitable levels of access and convenience to urban services and facilities.

² Text appearing in a shaded box like this is intended to provide guidance to the reader but is not part of the planning scheme.

A hotel and general store provide limited commercial facilities to residents and visitors. There is no water and sewerage available. Electricity is available to settled areas including Teewah.

Water and sewerage services are not reticulated to the area.

Communities

The **Noosa North Shore** locality retains its primary role as a substantial coastal area largely dedicated to conservation. A small portion is held as private freehold land, which is and will continue to be used for residential purposes. No further subdivision is anticipated, but the resident population is expected to grow as more properties become permanently occupied. The resident community plays an integral part in helping to plan and manage the desired conservation outcomes of the area. Development controls generally used elsewhere in Noosa are also used in this locality. The Great Sandy National Park, an area of regional open space, mostly lies to the north of the locality but also permeates through it, southwards to the lower reaches of the Noosa River. There are high levels of demand for beach recreation and access through the locality towards Double Island Point.

Limited visitor accommodation and services are provided in the locality. Maintenance of the locality's remote setting and undeveloped character are intended by means of—

- a priority emphasis on conservation outcomes for the locality;
- ferry access;
- limited standards of access across the locality;
- avoiding the construction of a vehicular bridge across to the Noosa North Shore;
- sustainable management of recreational visitors and activities;
- development limited to existing lots, with no increase in the number of privately owned lots; and
- visitor accommodation and services are limited to existing type and scale; including general store, hotel, caravan park, camping grounds and built accommodation.

The locality supports two communities and offers accommodation for visitors.

The small village of Teewah provides an area of housing at an urban density, in a remote beachfront setting. Access is via Forty Mile Beach and in Teewah is over sand tracks. Houses at Teewah are primarily used for holiday and retreat purposes.

Noosa North Shore provides residential and rural residential home sites, particularly along the Noosa River. Noosa North Shore offers accommodation for visitors to the locality in two areas:-

- The wilderness camp located on the beachfront; and
- Rustic style accommodation located east of Lake Cooroibah off Maximillian Road.

Division 2—General provisions for assessment tables

10.2 Assessment categories and types of development

The assessment categories for each type of development are identified in column 2 of tables 10.1 to 10.7. The types of development are as follows—

- 10.2.1 Tables 10.1—10.6—making a material change of use for a defined use, another use in a defined use class, or an undefined use, listed in column 1; or
- 10.2.2 Table 10.7—development other than a material change of use, listed in column 1 and including—
- a) Carrying out building work not associated with a material change of use;

- b) Carrying out building work if demolition, relocation or removal of a building and not associated with a material change of use;
- c) Placing an advertising device on premises;
- d) Reconfiguring a lot;
- e) Carrying out operational work associated with a material change of use where a Development Permit for material change of use has been issued;
- f) Carrying out operational work associated with reconfiguring a lot where a Development Permit for reconfiguring a lot has been issued;
- g) Carrying out operational works for the construction of a driveway for a **Detached house**;
- h) Carrying out operational works for prescribed tidal works;
- i) Excavating or filling of land not associated with a material change of use; and
- j) Other.

10.3 Relevant assessment criteria for self-assessable development and assessable development

- 10.3.1 The relevant assessment criteria are referred to in column 3 of tables 10.1 to 10.7;
- 10.3.2 For *self-assessable* development and development requiring code assessment, the relevant assessment criteria are applicable codes³.
- 10.3.3 For *impact assessable* development, the development is assessed against the whole planning scheme.

10.4 Consistent and inconsistent uses

- 10.4.1 In accordance with the following sections identified for the respective zones, a defined use or use class is noted in column 1 of the assessment table for making a material change of use for the relevant zone as either a consistent use or an inconsistent use.
 - a) Division 13 — Detached Housing Zone (Sections 10.11 and 10.12);
 - b) Division 14 — Visitor Mixed Use Zone (Sections 10.14 and 10.15);
 - c) Division 15 — Community Services Zone (Sections 10.18 and 10.19);
 - d) Division 16 — Rural Settlement Zone (Sections 10.21 and 10.22);
 - e) Division 17 — Open Space Recreation Zone (Sections 10.24 and 10.25); and
 - f) Division 18 — Open Space Conservation Zone (Section 10.27 and 10.28).

³ Assessment criteria will include matters prescribed by Sections 3.5.4 (Code Assessment) and 3.5.5 (Impact Assessment) of *IPA* in addition to the provisions of this planning scheme.

ASSESSMENT CATEGORIES AND RELEVANT ASSESSMENT CRITERIA FOR THE NOOSA NORTH SHORE LOCALITY – DEVELOPMENT OTHER THAN MATERIAL CHANGE OF USE

Column 1 Type of development	Column 2 Assessment category	Column 3 Relevant assessment criteria³⁹ - applicable code if development is <i>self-assessable</i> or requires code assessment
Carrying out building work not associated with a material change of use	<i>Self-assessable</i> <i>Code assessable</i> if not complying with Column 2 of Tables 14.44-14.46 of the Building Works Code.	If <i>self-assessable</i> — Column 2 of Table 14.44-14.46 of the Building Works Code If <i>code assessable</i> — Building Works Code
Carrying out building work if demolition, relocation or removal of a building and not associated with a material change of use ⁴⁰	<i>Self-assessable</i> if demolition of a Class 1 or 10 structure ⁴¹ <i>Code assessable</i> if— a) Demolition of a Class 1 or 10 structure and not complying with Column 2 of Tables 14.42-14.43 of the Building Removal, Relocation and Demolition Code; or b) Class 2 to 9 structure ⁴² <i>Exempt</i> otherwise	If <i>self-assessable</i> — Column 2 of Tables 14.42-14.43 of the Building Demolition, Relocation and Removal Code. If <i>code assessable</i> — a) Building Removal, Relocation and Demolition Code; and b) Waste Management Code; and c) Erosion and Sediment Control Code.
Placing an advertising device on premises	<i>Exempt</i> if <i>Low impact sign</i> <i>Self-assessable</i> if— a) <i>General sign</i> ; or b) <i>Medium impact sign</i> <i>Code assessable</i> if— a) not complying with Column 2 Table 14-41 of Advertising Devices Code; or b) <i>High impact sign</i>	If <i>self-assessable</i> — Column 2 of Table 14-41 of the Advertising Devices Code If <i>code assessable</i> — Advertising Devices Code
Reconfiguring a lot ⁴³	<i>Code assessable</i>	If <i>code assessable</i> — a) Noosa North Shore Locality Code; and b) Reconfiguring a Lot Code; and c) Landscaping Code; and d) <i>Engineering Works Codes</i>

³⁸ Assessment categories may also be affected by overlays. See overlay maps (OM7.1- OM7.5) and the provisions of Part 13 to determine whether the land is affected. Also see Part 2 Section 2.6.4 explaining how the higher assessment category prevails.

³⁹ Relevant assessment criteria are provided to assist with the preparation of an application and, in the case of impact assessable development, in no way affect the regard to be given to the planning scheme as a whole and other requirements in accordance with Section 3.5.5 of *IPA*

⁴⁰ A separate development permit will not be required if demolition or removal is to make way for a new use or building, on the same premises, for which a development permit has already been issued.

⁴¹ As defined in the *BCA*

⁴² As defined in the *BCA*

Column 1 Type of development	Column 2 Assessment category	Column 3 Relevant assessment criteria³⁹ - applicable code if development is self-assessable or requires code assessment
Carrying out operational works for landscaping associated with a Community Residence where a Development Permit for material change of use is required to be issued	<i>Self-assessable</i>	<i>If self-assessable—</i> a) S6.1 and S6.2, Community Residence Code; and b) Column 2 of Table 14.57 and S1.1, S1.2, S3.1, and S26.1, Landscaping Code
Carrying out operational works associated with material change of use where Development Permit for material change of use has been issued	<i>Code assessable</i>	<i>If code assessable—</i> a) Landscaping Code; and b) <i>Engineering Works Codes</i>
Carrying out operational work associated with reconfiguring a lot where Development Permit for reconfiguring a lot has been issued	<i>Code assessable</i>	<i>If code assessable—</i> a) Landscaping Code; and b) <i>Engineering Works Codes</i>

⁴³ Where premises are located within the Regional Landscape and Rural Production Area of the SEQ Regional Plan, development applications for reconfiguring a lot will be subject to Division 3 of the regulatory provisions of the SEQ Regional Plan.

Column 1 Type of development	Column 2 Assessment category	Column 3 Relevant assessment criteria ³⁹ - applicable code if development is <i>self-assessable</i> or requires code assessment
Carrying out operational work for the construction of a driveway for a Detached house or Community residence ⁴⁴	<i>Self-assessable</i> <i>Code assessable</i> if not complying with column 2 of Table 14.48 of Detached House Driveways Code	If <i>self-assessable</i> — Column 2 of Table 14.48 of the Detached House Driveways Code If <i>code assessable</i> — Detached House Driveways Code.
Carrying out operational works for prescribed tidal works ⁴⁵	<i>Code assessable</i>	If <i>code assessable</i> — a) Noosa North Shore Locality Code; and b) Table 14.64 of Watercourses Works Code ⁴⁶
Excavation or filling of land not associated with a material change of use (not for the purpose of constructing a dam)	<i>Self-assessable</i> ⁴⁷ if— a) Detached Housing Zone and involving less than 10m ³ of material; or b) in all other zones and involving less than 100m ³ of material. <i>Code assessable</i> if— a) not complying with column 2 of the Earthworks Code; or b) Detached Housing Zone and involving 10m ³ or more of material; or c) in all other zones and involving 100 m ³ or more of material.	If <i>self-assessable</i> — c) Column 2 of Table 14-52 of Earthworks Code; and d) Column 2 of Table 14-53 of the Erosion and Sediment Control Code If <i>code assessable</i> — a) Earthworks Code; and b) Erosion and Sediment Control Code.
Excavation or filling not associated with a material change of use for the purpose of constructing a dam	<i>Self-assessable</i> ⁴⁸ if Rural Settlement Zone and involving less than 500m ³ of material. <i>Code assessable</i> if— a) not complying with column 2 of Table 14-52 of the Earthworks Code; or b) Rural Settlement Zone and involving 500m ³ or more of material; or c) in all other zones.	If <i>self-assessable</i> — a) Column 2 of Table 14-52 of the Earthworks Code; and b) Column 2 of Table 14-53 of the Erosion and Sediment Control Code If <i>code assessable</i> — a) Earthworks Code; and b) Erosion and Sediment Control Code.

⁴⁴ A separate operational works approval is not required where the construction of a driveway for a detached house or community residence is associated with a material change of use.

⁴⁵ Prescribed tidal works is defined in Schedule 4A of the *Coastal Protection and Management Regulation 2003* and includes tidal works outside the Noosa Waters lock system.

⁴⁶ The Prescribed Tidal Works Code under Schedule 4A of the *Coastal Protection and Management Regulation 2003* also applies.

⁴⁷⁻⁴⁸ This applies only once to any premises.

Division 10—General provisions for the Noosa North Shore Locality Code

10.5 Noosa North Shore Locality Code

The following provisions comprise the Noosa North Shore Locality Code—

- 10.5.1 compliance with the Noosa North Shore Locality Code (Section 10.7);
- 10.5.2 overall outcomes for the Noosa North Shore Locality, including for each zone in the locality (Division 11);
- 10.5.3 specific outcomes and probable solutions for the Noosa North Shore Locality (Division 12); and
- 10.5.4 specific outcomes and probable solutions for each zone in the Noosa North Shore Locality (Divisions 13 to 18).

10.6 Compliance with the Noosa North Shore Locality Code

Development complies with the Noosa North Shore Locality Code if it—

- 10.6.1 fulfils the specific outcomes for the locality in Division 12; and
- 10.6.2 is a consistent use and fulfils the specific outcomes for the relevant zones (Divisions 13 to 18).

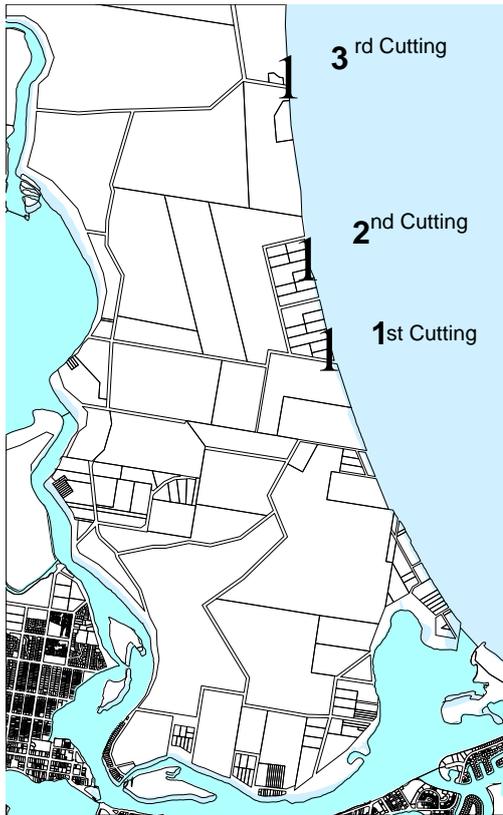

Division 11—Overall outcomes for the Noosa North Shore Locality

10.7 Overall outcomes for the Noosa North Shore Locality

- 10.7.1 The overall outcomes are the purpose of the Noosa North Shore Locality Code.
- 10.7.2 The overall outcomes sought for the Noosa North Shore Locality are the following—
 - a) New uses and works are located, designed and managed to—
 - i be compatible with other uses and works;
 - ii maintain the safety of people and works;
 - iii avoid significant adverse impacts on the amenity enjoyed by users of other premises, including acoustic and visual qualities; and
 - iv avoid significant adverse effects on the natural environment, including native habitat removal, fragmentation and attrition;
 - b) Development is consistent with the Priority Infrastructure Plan in Part 15;
 - c) The Noosa North Shore Locality retains its primary role as a substantial coastal area largely dedicated to conservation;

- d) Development is secondary to and dominated by its open space setting with a very low intensity and scale of operation;
- e) Limited visitor accommodation and services are provided in the locality, confined to the Visitor Mixed Use Zone, and the wilderness camp in the Open Space Recreation Zone;
- f) Maintenance of the locality's remote setting and undeveloped character are achieved by—
 - i a priority emphasis on conservation outcomes for the locality;
 - ii ferry access;
 - iii limited standards of access across the locality;
 - iv avoiding the construction of a vehicular bridge across to the Noosa North Shore;
 - v retention of existing vegetation with clearing kept to a minimum;
 - vi *ecologically sustainable* management of recreational visitors and activities; and
 - vii development areas limited to existing pattern, with no increase in the number of privately owned lots; and
- g) The scale and form of buildings and other structures are—
 - i closely related to the setting and existing buildings;
 - ii designed to be responsive to the informal coastal and riverside character of the locality;
 - iii integrated into the landform and landscape; and
 - iv consistent with the amenity and safety expectations of the community;
- h) Residential development and **Visitor accommodation** is characterised by—
 - i low impact buildings of a domestic scale within densely landscaped settings;
 - ii building designs that are well articulated and that use design elements to present a pleasant appearance to public places;
 - iii building designs that fit well with the coastal and riverside character of the locality and feature lightweight timber or cladding materials suited to the climate; and
 - iv buildings of a domestic scale;
- i) Development offering **Visitor accommodation** and services is low key to avoid changes to the character as a result of excessive visitor numbers and adverse environmental impacts from over-use;
- j) **Residential Uses** and **Visitor accommodation** are well managed so they do not adversely impact upon land identified as open space;
- k) The demand for increased levels of community services is balanced with the environmental sensitivity of the locality;
- l) Community facilities, including parking and passive recreation space are located adjacent to the 1st cutting beach access off Beach Road (see **Map 10-1**), established in response to the needs of residents and visitors;

Map 10-1

- m) A range of nature based recreational experiences utilise the natural assets of the area and its separateness from the balance of Noosa as a means to enhance the experience of visitors and residents;
- n) Reticulated water supply and sewerage are not provided to the locality as part of any Council programme;
- o) There is no adverse impact on ground and surface water quality, human health and amenity as a consequence of the on-site disposal of effluent;
- p) Underground electricity supply is extended through the locality;
- q) Vehicular access throughout the locality remains of an all-weather unsealed standard to most parts with a sealed road linking the ferry crossing point to the beach;
- r) Beach access points are defined and controlled to 2 locations described as the 1st cutting and the 3rd cutting (See **Map 10.1**);
- s) The inland road parallel to the beach between the 1st and 3rd cutting beach accesses (See **Map 10.1**) is upgraded;
- t) The environmental and cultural heritage values of the locality are conserved and well managed;
- u) Areas of native remnant or regrowth vegetation, including their biodiversity and habitat values are protected;
- v) The **village of Teewah** remains a remote, secluded, small collection of detached houses without an urban standard of roads, services or infrastructure. It is confined to the area generally surrounded by Tailor Street, Stargazer Street, Mackerel Street, Mulloway Street and the Esplanade; and

- w) The Noosa River and foreshores are protected from the cumulative impacts of development and activities and are protected in a way that promotes and provides for low impact nature-based recreation activities in and around the Noosa River over other forms of recreation;
- x) For the **Detached Housing Zone**—single detached housing prevails which maintains—
 - i a low impact, low density development form of domestic scale;
 - ii a high level of residential amenity;
 - iii building styles befitting the coastal and riverside character of the locality and which respond to, and are integrated with, site characteristics including slope and *vegetation*; and
 - iv landscaped settings consistent with the character of the locality;
- y) For the **Visitor Mixed Use Zone**—**Visitor accommodation** with associated **Business Uses** serve visitors to the locality; where—
 - i they are located within the existing allotment developed for **Visitor accommodation** and **Business Uses** with no further subdivision;
 - ii they continue to provide the same level of accommodation and business services as existing;
 - iii the premises are low impact, low density development forms of domestic scale;
 - iv development has a distinct open space feel, reflecting the seclusion and values of the Noosa North Shore; and
 - v the commercial attractions established at the sites are related to recreational experiences offered in the locality;
- z) For the **Community Services Zone**—land committed or planned for community purposes is—
 - i protected and managed to enable the efficient and timely delivery of community services; and
 - ii consistent with the recreation, social and safety needs of the local community and visitors to the locality;
- aa) For the **Rural Settlement Zone**—detached housing on large lots—
 - iii is the dominant building form and use, consisting of buildings of a domestic scale, to the general exclusion of other uses;
 - iv incorporate designs that respond to, and are integrated with site characteristics, including native *vegetation*;
 - v contributes to the rural or semi-rural character and amenity of the area; and
 - vi offers a relaxed rural lifestyle for residents;
- bb) For the **Open Space Recreation Zone**—areas of open space contribute to the desired lifestyle of residents by offering a variety of recreational experiences conducive to community interaction and wellbeing; and
- cc) For the **Open Space Conservation Zone**—natural environmental values of the highest order and warranting conservation status are—

- i protected for their importance in contributing to *ecological sustainability* including maintenance of water quality, beach protection, and provision of habitat and open space linkages; and
- ii appropriately managed to the general exclusion of development or any further subdivision of freehold lots.

Division 12—Specific Outcomes and Probable Solutions for the Noosa North Shore Locality

column 1 Specific Outcomes	column 2 Probable solutions
10.8 Effects of use	
<p>Amenity O1 Uses are located, designed and operated to avoid significant adverse changes to the light, air quality, noise, accessibility or other conditions enjoyed by users of associated, adjoining or nearby uses.</p>	No solution provided
<p>Maximillian Road and Beach Road O2 The vegetated character of Maximillian Road and Beach Road are protected and new <i>development</i> recognises and protects the function, capacity and efficiency of these roads.</p>	<p>S2.1 <i>Development</i> along Maximillian Road and Beach Road provides a minimum of 10m wide <i>buffering</i> in the form of landscaped <i>setback</i> for visual screening and noise attenuation.</p>
10.9 Built form	
<p>Density O3 The density of development within the <i>site</i> area—</p> <ul style="list-style-type: none"> a) is compatible with surrounding development; and b) has a low site impact to enhance the opportunity to maintain natural site characteristics, including native <i>vegetation</i> and natural landforms. 	No solution provided
<p>Height O4 Buildings and other structures—</p> <ul style="list-style-type: none"> a) are low rise and present a building height consistent with structures on adjoining and surrounding land; b) do not exceed a maximum height of 2 <i>storeys</i>; c) do not visually dominate the street, adjacent properties, surrounding spaces or the existing skyline; d) preserve the amenity of surrounding land, including existing sunlight to neighbouring properties; and e) respect the scale of the dune and coastal <i>vegetation</i>. 	<p>S4.1 <i>Buildings</i> and other <i>structures</i> have a maximum building height of—</p> <ul style="list-style-type: none"> a) if in the Rural Zone or Rural Settlement Zone—8m or 9m where the pitched roof but no other part of the <i>building</i> or <i>structure</i> exceeds 8m (but not exceeding 2 storeys either way); or b) in all other zones—8m (but not exceeding 2 storeys).

column 1 Specific Outcomes	column 2 Probable solutions
<p>Setbacks</p> <p>O5 Buildings and other structures are appropriately designed and sited to—</p> <ul style="list-style-type: none"> a) result in minimal disturbance of natural terrain; b) provide amenity for users of the premises as well as preserve the visual and acoustic amenity of adjoining and nearby properties; c) preserve any existing <i>vegetation</i> that will buffer the proposed building and assist in the control of weeds; d) allow for landscaping to be provided between buildings; e) maintain the visual continuity and pattern of buildings and landscape elements within the street; and f) help protect the natural character and visual amenity of the beachfront and riverfront. 	<p>S5.1 Buildings and structures comply with the minimum building setbacks identified in Schedule 1 - Minimum Building Setbacks.</p>
<p>Fences</p> <p>O6 Fencing contributes to the bush setting of the Noosa North Shore and does not block the views of neighbours.</p>	<p>S6.1 Fencing comprises timber and wire materials rather than the use of solid wall construction</p>
