Proactive tree work, Tewantin

Project summary

Council's proactive tree work continues in Tewantin.

Most of this stage of work will be completed from the ground and involves:

- formative pruning of juvenile trees
- lift pruning for vehicular and pedestrian access, street lighting and visibility
- small tree removal and stump grinding.

Timing

Weather permitting, the work will commence late April/early May with completion expected by late May or early June 2021.

Replacement trees and offsets

As per Council's Tree Management on Public Land policy, where possible suitable replacements will be planted with an extended maintenance period.

Further information

Please contact Council's Arborist Dorene Di Bartolomeo on 07 5329 6500.
