11<sup>th</sup> May 2021

### Accessible Bus Stops Program – 2020/21

#### Project summary

Council's contractors are commencing construction to upgrade eight existing bus stops across the Shire.

#### Scope of works

Civil work will be undertaken at five of the sites so they can achieve Disability Discrimination Act (DDA) compliance.

Once complete, these sites will have

- a new concrete boarding platform;
- a new bus stop seat;
- a new bicycle hoop; and
- signage.

Four bus stops (including one of the sites undergoing civil work) will also have new "Noosa-Style" bus shelters installed.

Details of individual sites can be found on page two of this project news.

#### Funding

The Queensland Government's Passenger Transport Accessible Infrastructure Program is providing dollar for dollar funding support to Council for these works.

#### Duration of works

Works are scheduled to commence on Monday 17 May and will take approximately five weeks to complete.

Timelines for specific sites can be found overleaf.

#### Disruption to bus passengers

Bus stops will be temporarily relocated, clearly sign posted and in close proximity to the existing bus stop they are replacing.

Your patience during these works is appreciated.

#### Further information

Please contact Council's project officer James Santifort on (07) 5329 6500.

### Bus Stop Upgrade Locations

Stop ID (HASTUS ID)	Street Name	Stop Description	Suburb	Target Start Date
