25th January 2022

Noosa Heads, Noosa Parade corridor upgrade construction starts

Project summary

Major work to upgrade the Noosa Parade corridor, one of Noosa's busiest pedestrian and cycle routes, will commence in February 2022.

The \$8 million project is partially funded by the Department of Transport and Main Roads under the Cycle Network Local Government Grants Program (CNLGGP) with the balance funded by Council.

Construction timing

Construction of the 1.2km upgrade will be divided into three stages:

- Stage One (Feb to June 2022) - Munna Point Bridge to Lagoon Drive, Noosa Parade
- Stage Two (June to Sept 2022) - Lagoon Drive to Belli Street, Noosa Parade
- Stage Three (Sept to Oct 2022) - Belli Street to Noosa Parade roundabout.

These three stages will take approximately nine months to complete, weather and construction conditions permitting. Construction is planned to be completed prior to the next Noosa Triathlon event scheduled for late October 2022.

Traffic and parking impacts

As construction progresses, parking bays will be closed stage by stage to allow this roadway to become temporary traffic lanes.

This will be done in 400m sections to minimise the impact on parking and make sure work zones are safe and manageable.

Residents and road users will be notified of these closures via letterbox drop, parking signage and VMS boards prior to their closure.

If you usually park a vehicle or boat trailer along Noosa Parade, you will need to make alternate arrangements during construction. Parking bays will reopen as each stage is completed.

Community engagement

Council has undertaken extensive community and stakeholder engagement during the design and development phases of the project and, in partnership with Bellwether Contractors Pty Ltd, will continue to work with the community to provide updates as works progress.
