

REVISED WASTE GATE FEES

Noosa Council's gate fees are based on a full cost recovery model.

Most domestic and commercial waste fees increase from 1 July 2022.

However, we are delaying some commercial waste fees until 1 August 2022. This is to provide appropriate time for commercial operators to revise their pricing structure in readiness for their implementation.

All commercial waste line items attract a state waste levy.

The new charges, effective 1 August are:

	Clean Soil (pro rata per tonne /m ³)	\$162.90
	Commercial Waste Commercial Waste (pro rata per m ³)	\$211.00
	Commercial Waste Construction and Demolition Waste (pro rata per m ³)	\$211.00
	Commercial Waste Commercial Waste (pro rata per tonne)	\$316.60
	Commercial Waste Construction and Demolition Waste (pro rata per tonne)	\$316.60
	Domestic Waste Domestic Waste (pro rata per m ³)	\$141.00
	Domestic Waste Domestic Waste (pro rata per tonne)	\$211.00

All prices GST inclusive.

* Please note cubic metre rate is charged at the rural transfer stations Pomona and Cooroy, as there are no weighbridges at those sites.
