

## Project news

7<sup>th</sup> July 2022

### Noosa Parade corridor upgrade, Noosa Heads Stage 1 nearing completion

Stage 1 of the Noosa Parade corridor upgrade between Munna Point Bridge and Lagoon Drive is nearing completion and Stage 2 through to Ravenwood Drive is well underway. Stage 3 between Ravenwood Drive and the Garth Prowd Bridge will start in mid-July. This phased approach is being adopted in order to minimise the impact to the construction schedule of a higher-than-average level of rainfall during the first half of 2022.

#### On-street parking changes

As Stage 3 commences, on-street parking bays along Noosa Parade between Ravenwood Drive and Garth Prowd Bridge will be used as temporary traffic lanes while the works are underway in the median island. The parking bays in this area will be removed during the week starting 11 July 2022.

If you usually park a vehicle or boat trailer in this section of Noosa Parade, you will need to make alternate arrangements while construction is underway. Vehicles in the work zone will be towed.

#### Vegetation removal

From mid-July, vegetation in the median and road reserve will be removed and a more appropriate selection of trees and shrubs will be planted. The enhanced landscaping will increase shade and visual appeal along the corridor.

#### Pre-construction surveys

Pre-construction property condition surveys will be conducted on some properties in Stage 3.

This is to get an accurate record of the condition of notable structures near construction work. A representative of AusDilaps, who is completing the surveys on behalf of Bellwether, will contact residents directly at the end of July.

#### Traffic and property impacts

Motorists are reminded to drive to the changed conditions, follow signage, and allow additional travel time. Short-term lane closures may also be required while work is underway, with traffic control to direct traffic. For the safety of workers near live traffic, all motorists are reminded to adhere to the reduced speed limit.

Properties along Noosa Parade will experience some disruptions during driveway demolition and construction. Bellwether contractors will contact impacted residents before work starts to inform them of the timing of work and make alternative arrangements as required.
