

Liveability Index 2026

Marcus Beach and Peregian Beach (Coastal Communities – South)

In February 2026 Noosa Council in conjunction with Place Score conducted our second Liveability Survey. This survey was completed by over 2300 community members who told us what they value most about their neighbourhood and how they rate their neighbourhood. These scores were then combined to provide an overall Liveability Index for each neighbourhood.

These results allow us to focus on the things most valuable to our community. It helps us plan and make decisions that will have the greatest impact on wellbeing. It also recognises that each neighbourhood is unique with its own values and lived experiences. By planning for liveability, we provide safe, healthy, active and resilient communities and places.

Top 5 Values

These are the things most important to Marcus Beach and Peregian Beach communities in their ideal neighbourhood:

Liveability Index

Liveability is simply what a place is like to live in. Understanding the relationship between people and their places is the key to understanding local liveability, and how it can be enhanced. The Liveability Index is an assessment of how each community rates their neighbourhood. While two locations scores may be similar, how the community rates each Place Attribute may be quite different within each location.

Peregian and Marcus Beach

Noosa Shire

Australia

So what does this score mean?

Based on the national average: 70+ is performing well | 65-69 – average | 50-64 – room for improvement | < 50 urgent care needed

Given the many external factors that contribute to community sentiment regarding local liveability, the Australian Liveability Census undertaken by Place Score in 2025 indicates an overall national and statewide trend with a drop in liveability across the majority of local government areas. Overall, Noosa Shire only dropped one point since the 2021 Liveability Survey with a 69/100.

Liveability in Marcus Beach and Peregian Beach is performing well with a score of 72/100 which is three points above the average for the Shire and only one point below the 2021 survey result of 73/100.

Care

Community Priorities for Liveability Peregian and Marcus Beach

Our Strengths

These are the things you care about most and say are performing well. We must continue to nurture and protect these.

-  Protection of the natural environment
-  Elements of natural environment (natural features, views, vegetation, topography, water, wildlife etc.)
-  Walking/jogging/bike paths that connect housing to communal amenity (shops, parks etc.)
-  Access to neighbourhood amenities (cafes, shops, health and wellness services etc.)
-  Local businesses that provide for daily needs (grocery stores, pharmacy, banks etc.)
-  Sense of neighbourhood safety (from crime, traffic, pollution etc.)
-  Landscaping and natural elements (street trees, planting, water features etc.)
-  Locally owned and operated businesses
-  Sense of belonging in the community
-  Sense of personal safety (for all ages, genders, day or night)

Our Opportunities

These are important and performing at moderate levels. We must manage these attributes to improve their contribution to local liveability.

-  General condition of the public open space (street trees, footpaths, parks etc.)
-  Access and safety of walking, cycling and/or public transport (signage, paths, lighting etc.)
